Adaptative Safety System

Safety and Adaptative Evacuation System

ZEMPER

INTELLIGENT

System composed by our emergency lighting system, NEW Adaptative Luminaires, sensors and a complex adaptative algorithm.

SENSORS

Multi-sensor system. (CO, Temperature, Pressure, Relative Humidity, Occupancy, Light).

ADAPTATIVE

Our NEW Luminaires can change evacuation routes in real time to ensure the best and safe emergency exit guidance in an evacuation case.

WIRELESS

Adaptive luminaires connected through the latest trends in IoT technology to ensure a quick systems' management.
